

## PRESS RELEASE

### **KoneX expands global presence through strategic alliance with Ferfier and InterralT**

**Amsterdam – 10 Feb 2026.** KoneX, the integration Platform as a Service (iPaaS) specialized in connecting eCommerce systems and processes end-to-end, announces a deepened global alliance with **Ferfier** and its integration partner **InterralT**.

This strategic collaboration strengthens KoneX's global reach while reinforcing local presence and execution capabilities across key international markets. The alliance brings together complementary strengths. KoneX provides the integration platform and ecosystem orchestration, Ferfier contributes international market access and commercial scale, and InterralT delivers proven integration expertise with delivery teams operating across multiple continents.

### **Strengthening local presence with global consistency**

Through this partnership, KoneX gains enhanced local presence in the Americas, supported by Ferfier's established footprint and InterralT's delivery capability. This allows KoneX to support customers locally where required, while maintaining a single, consistent integration platform and seamless execution. At the same time, Ferfier and InterralT benefit from improved access to the European market, supported by KoneX's EU-based presence, market knowledge, and established network of online retailers, fulfilment providers, and logistics partners.

### **Creating tangible customer value**

The expanded alliance delivers clear advantages for customers operating internationally:

- **Local execution, global platform**  
Regional delivery and support combined with one unified integration landscape.
- **Faster international expansion**  
Companies can scale into new markets without redesigning or duplicating integrations.
- **Balanced commercial and technical strength**  
Market development and strategic growth are combined with reliable, scalable integration delivery.
- **Stronger EU–Americas connectivity**  
Improved alignment between regional ecosystems supports multi-geography operations and growth.

**Edgar Kiwiet, CEO, INNOVATION KITE** said, "Partnership will help expand Konex platform and support clients globally. Ferfier expertise in next gen technologies and global support model will help our customers to implement KoneX across organization resulting in higher value creation for all stakeholders.

**Hemraj Rana, Group CEO, Ferfier Technologies** said, "This partnership with Konex is an important moment to re-imagine e-commerce and the future of seamless integration of supply chain Industry. By combining KoneX platform and decades of deep supply chain domain expertise of InterralT, a Ferfier group company, we are going to empower supply chain organization to deliver seamless, proactive, and data-driven customer experiences".

### **A shared long-term vision**

The alliance reflects a shared vision to reduce integration complexity for companies operating across borders. By combining global reach with local impact, KoneX, Ferfier, and InterralT enable eCommerce and logistics-driven organizations to grow globally in a controlled, scalable, and sustainable way.
